

The following formulary decisions and updates apply to **Optum Rx[®] standard EHB formularies**.

The Optum Rx Business Committee meets monthly to evaluate tier placements and new prescription products approved by the Food and Drug Administration (FDA). This committee makes decisions based on information and recommendations from the Optum Rx Pharmacy & Therapeutics Committee, comprised of independent physician providers and pharmacists.

The following are the strategic clinical decisions made in the past month. Your actual plan's copays and/or coinsurance may differ from those indicated depending on the selected plan design, which determines coverage and pharmacy provider(s).

The tier chart below does not necessarily correlate to Centers for Medicare and Medicaid Services (CMS) submission tiers.
