

Plastikon Healthcare – Recall of Milk of Magnesia

- On September 6, 2019, [Plastikon announced](#) a voluntary, patient-level recall of two lots of [milk of magnesia](#) 2400 mg/30 mL oral suspension because these lots did not meet Plastikon's in-house microbiological specification for total aerobic microbial count.
- Milk of Magnesia oral suspension is privately labeled by Major and packaged in cartons. The affected lots were distributed in August 2019.

| Product Description | NDC# | Lot# (Expiration Date) | Configuration |
|------------------------------------------------------|------------------|-------------------------------------------|-------------------------------------------------------------------|
| Milk of magnesia 2400 mg/30 mL oral suspension | 0904-6846- 73 | 19027D (7/2021); 19027E (7/2021) | Carton containing 100 single dose cups (10 trays x 10 cups) |

- Milk of magnesia is indicated for the occasional relief of constipation in adults and children 12 years and older or for children under 12 as recommended by a doctor.
- The product is packaged for institutional use and is sold to clinics and hospitals. The patient population most likely to use the product are likely immunocompromised. Patients with compromised immune systems, such as patients in hospitals and nursing homes, have a higher probability of developing potentially life-threatening infections after taking a contaminated product.
- To date, Plastikon has not received any customer complaints or reports of adverse events related to this issue.
- Anyone with an existing inventory of the recalled lots should stop use and distribution and quarantine immediately.
- Patients who are taking this product should consult with their healthcare provider or pharmacy to determine if they have the affected product lots. Patients with the affected lots should return the product to their pharmacy or contact Plastikon Healthcare **(1-785-330-7100)** for instructions on how to return their product and obtain reimbursement for their cost.
- Consumers should contact their physician or healthcare provider if they have experienced any problems that may be related to taking or using this drug product.
