

AvKare – Recall of sildenafil and trazodone

- On December 7, 2020, AvKare announced a voluntary recall of one lot of [sildenafil](#) 100 mg tablets and one lot of [trazodone](#) 100 mg tablets because of mixed product. A bottle of sildenafil contained trazodone tablets and a bottle of trazodone contained sildenafil tablets.
 - Patients that have the recalled sildenafil or trazodone should return the product to their pharmacy for a replacement.
 - AvKare is only recalling some bottles of sildenafil and trazodone. Other sildenafil and trazodone tablets are available for patients to use and are not being recalled.
- The recalled lots are listed below.

Product Description	NDC#	Lot# (Expiration Date)
Sildenafil 100 mg tablets	42291-748-01	36884 (03/2022)
Trazodone 100 mg tablets	42291-834-10	36783 (06/2022)

- Sildenafil is indicated for the treatment of erectile dysfunction. Trazodone is indicated for the treatment of major depressive disorder in adults.
- Patients should contact their physician or healthcare provider if they have experienced any problems that may be related to using the recalled sildenafil or trazodone.
- Anyone with an existing inventory of the recalled product should stop use, distribution and quarantine the product immediately.
- Contact AvKare by phone at **931-292-6222** or by email at **customerservice@avkare.com** for more information.
