

## Various manufacturers – Supply of amoxicillin oral products

- The [FDA reports](#) a national shortage of amoxicillin oral suspension products from multiple manufacturers due to increased demand. There is some supply available, but it may be either on allocation or have limited availability. There is no estimated time frame as to when the shortage will resolve. Supply of other antibiotic medications are available as alternatives.
- [ASHP](#) also reports supply disruption of amoxicillin capsules and tablets. Some manufacturers report that more product will be available January 2023 through February 2023.
- Refer to the [FDA's Frequently Asked Questions](#) for more information on drug shortages.
