

## Jubilant Cadista – Recall of Drospirenone/Ethinyl Estradiol Tablets

- On July 23, 2019, [Jubilant Cadista Pharmaceuticals announced](#) a voluntary, consumer-level recall of one lot of [drospirenone/ethinyl estradiol](#) tablets due to out-of-specification (OOS) dissolution results at the 3-month stability time point.
- The recalled lot was distributed nationwide to wholesalers, distributors and retailers.

Product Description	NDC#	Lot# (Expiration Date)
Drospirenone/ethinyl estradiol 3 mg/0.02 mg tablets	59746-763-43	183222 (11/2020)

- Drospirenone/ethinyl estradiol tablets are an estrogen/progestin combination oral contraceptive, indicated for use by women to: prevent pregnancy; treat symptoms of premenstrual dysphoric disorder for women who choose to use an oral contraceptive for contraception; and to treat moderate acne for women at least 14 years old and/or if the patient desires an oral contraceptive for birth control.
- As a result of the OOS dissolution results, product efficacy may be decreased due to incomplete absorption of the active ingredients. To date, Jubilant Cadista Pharmaceuticals has not received any reports of adverse events related to this recall.
- Patients that have used the affected lot of drospirenone/ethinyl estradiol tablets or have experienced any problems that may be related to using the recalled product should consult their healthcare provider. Patients may return the affected lot to their place of purchase.
- Anyone with an existing inventory of the recalled product should stop use and distribution, and quarantine the product immediately.
- For more information regarding this recall, contact Jubilant Cadista at **1-800-308-3985**.
