

Disulfiram – Drug shortage

- The [drug shortage](#) of [disulfiram](#) tablets is ongoing. Generic disulfiram has been unavailable for at least 90 days. Manufacturers Alvogen and Teva do not have an estimate as to when product will be available.
 - Alvogen has the product on shortage due to shipping delays. Teva did not provide a reason for the drug shortage.
- Disulfiram is an aid in the management of selected chronic alcohol patients who want to remain in a state of enforced sobriety so that supportive and psychotherapeutic treatment may be applied to best advantage.
