

New 2022 Medicare benefit: 100-day supply of medications are now available

As of January 1, 2022, UnitedHealthcare Medicare members in 22 western and central US states* are eligible to receive 100-day supplies of their medications for the same copay as a 90-day supply as part of their insurance benefit.¹

Recent data shows that 100-day supplies can lead to **better medication adherence**, which can result in higher Star ratings.

Important advantages for you and your patients:

-  Drives greater medication adherence²
-  Maximizes patients health plan benefits
-  Saves patients money—Same copay for 100-day supply as 90-day supply
-  Improves access to medications, resulting in a better patient experience

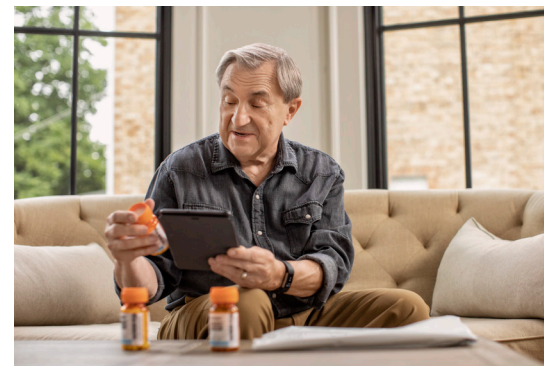

OptumRx home delivery pharmacy continues to work with Medicare patients to ensure they understand their prescription drug plan and maximize their benefits.

 **To order:** When calling in or sending prescriptions electronically, update to 100-day supply plus 3 refills.

Questions:

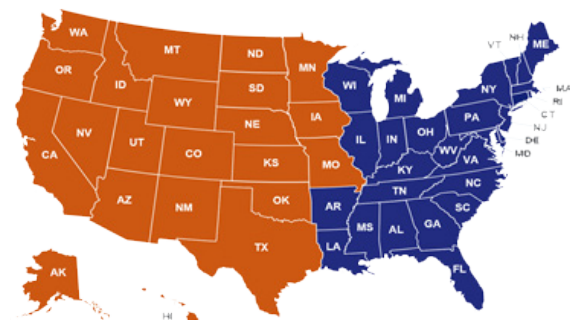

Call our dedicated clinician line at **1-800-791-7658**.

1. Does not apply to controlled substances or specialty medications.
2. OptumRx internal West Region medication adherence reporting, YE 2020.

Did you know...
For every 10% increase in 100-day prescription utilization, measure adherence increases 0.5%.²
