

## 2023 Medicare Opioid Guidance

### Optum Rx Medicare Part D MAPD, PDP, EGWP, MMP and PACE Plans

**Effective Date: January 1, 2023**

On January 1, 2019, Optum Rx<sup>®</sup> Medicare Part D plans implemented opioid prescription requirements based on the Centers for Medicare & Medicaid Services (CMS) guidance, United States Drug Enforcement Administration (DEA) requirements, United States Center for Disease Control (CDC) guidance, as well as Optum Rx strategies. These new policies included improved safety edits when opioid prescriptions are dispensed at the pharmacy and drug management programs for patients determined to be at-risk for misuse or abuse of opioids or other frequently abused drugs. These changes were made to promote safe and appropriate use of opioids and to limit excess supply in the market. This notice describes the opioid edits, reject codes, messaging and recommended action for pharmacies.

To communicate CMS opioid limitations within a claim billing transaction, Optum Rx will apply guidance from the National Council for Prescription Drug Programs (NCPDP). This recommendation structures how opioid utilization edits are defined in claim rejections and overrides. It can be applied across similar opioid patient safety programs.

Optum Rx urges pharmacists, when appropriate, to resolve opioid safety limits/edits at the point-of-service. Please use this Guide or refer to the Optum Rx Provider Manual to help with resolving rejected prescription claims associated with new opioid safety edits and/or supply limits.

***Note: One claim may hit multiple opioid safety edits.***

To view payer sheets, visit: <https://professionals.optumrx.com/resources/payer-sheets.html>. To reduce processing errors, please confirm the information on member's ID card prior to submitting prescription claims.

Should you have any questions or require assistance, please contact the Optum Rx Pharmacy Help Desk at **(800) 797-9791** (24 hours a day, 7 days a week).

**Please distribute immediately.**

Opioid Edit Name	Description	Standard Reject Code / Description	Standard Messaging	Recommended Action / Additional Detail																											
Opioid-APAP Exceeding 4,000mg APAP (Soft Reject)	The edit assesses the total acetaminophen daily dose based on FDA approved maximum dosing information. The edit identifies single incoming claims of concern, as well as overlapping claims with the member's history based on specific ingredient. The total daily dose across identified claims is then calculated. The edit will be triggered if total daily dose exceeds the FDA-defined maximum daily dose.	88 – DUR Reject Error  569 – Provide Notice: Medicare Prescription Drug Coverage and Your Rights	Opioid+APAP has APAP>4g  Check dose  To O/R submit DUR/PPS codes  RxHelp 8007979791	<p><b>Additional Detail</b> This edit has been a CMS requirement since January 1, 2014.</p> <p><b>Recommended Action</b> Pharmacies should use their professional judgment to review and override the rejection. The pharmacist will need to identify and enter the appropriate DUR/PPS Codes, including the Reason for Service, Professional and Result codes. The following steps should be followed:</p> <ul style="list-style-type: none"> <li>Review the patient profile to identify why the patient is filling greater than the FDA approved maximum dose.</li> <li>Consult with the prescriber and/or the member as needed to confirm the claim exceeding the FDA approved maximum dose is medically necessary.</li> <li>Based on your clinical judgment, determine if the drug should be dispensed.</li> <li>If determined appropriate, override the rejection by identifying and entering the appropriate Reason for Service, Professional, and Result code for each component.</li> <li>The Reason for Service code below should auto-populate. If, not then use the</li> <li>Reason Code below of HD (High Dose Alert).</li> <li>Select the appropriate Professional and Result codes from the table provided below.</li> <li>Each component is only allowed to have one code.</li> </ul> <table border="1"> <thead> <tr> <th>Reason for Service Code</th> <th>Professional Service Code</th> <th>Result of Service Code</th> </tr> </thead> <tbody> <tr> <td rowspan="15">HD High Dose Alert</td> <td rowspan="9">M0 Prescriber Consulted</td> <td>1G Filled, Prescriber Approvl</td> </tr> <tr> <td>1B Filled, Prescription As Is</td> </tr> <tr> <td>1C Filled, Different Dose</td> </tr> <tr> <td>1D Filled, Different Directns</td> </tr> <tr> <td>1F Filled, Different Quantity</td> </tr> <tr> <td>2A Prescription Not Filled</td> </tr> <tr> <td>3C Discontinued Drug</td> </tr> <tr> <td>3D Regimen Changed</td> </tr> <tr> <td>3E Therapy Changed</td> </tr> <tr> <td rowspan="2">P0 Patient Consulted</td> <td>1A Filled As Is, Falso Positv</td> </tr> <tr> <td>3K Instructions Understood</td> </tr> <tr> <td rowspan="9">R0 Pharmacist Consulted Othr</td> <td>1G Filled, Prescriber Approvl</td> </tr> <tr> <td>1B Filled, Prescription As Is</td> </tr> <tr> <td>1C Filled, Different Dose</td> </tr> <tr> <td>1D Filled, Different Directns</td> </tr> <tr> <td>1F Filled, Different Quantity</td> </tr> <tr> <td>2A Prescription Not Filled</td> </tr> <tr> <td>3C Discontinued Drug</td> </tr> <tr> <td>3D Regimen Changed</td> </tr> <tr> <td>3E Therapy Changed</td> </tr> </tbody> </table> <p>If the rejection cannot be resolved, and the prescription cannot be filled as written, distribute a copy of the standardized CMS pharmacy notice <u>Medicare Prescription Drug Coverage and Your Rights</u> to the patient, and advise the member, the member's appointed representative, or the prescriber to request a coverage determination through their prescription drug plan.</p>	Reason for Service Code	Professional Service Code	Result of Service Code	HD High Dose Alert	M0 Prescriber Consulted	1G Filled, Prescriber Approvl	1B Filled, Prescription As Is	1C Filled, Different Dose	1D Filled, Different Directns	1F Filled, Different Quantity	2A Prescription Not Filled	3C Discontinued Drug	3D Regimen Changed	3E Therapy Changed	P0 Patient Consulted	1A Filled As Is, Falso Positv	3K Instructions Understood	R0 Pharmacist Consulted Othr	1G Filled, Prescriber Approvl	1B Filled, Prescription As Is	1C Filled, Different Dose	1D Filled, Different Directns	1F Filled, Different Quantity	2A Prescription Not Filled	3C Discontinued Drug	3D Regimen Changed	3E Therapy Changed

Opioid Edit Name	Description	Standard Reject Code / Description	Standard Messaging	Recommended Action / Additional Detail
Opioid Day Supply Limit	Optum Rx® Medicare Part D members will be limited to a 30- day supply of opioid medication per prescription.	76 - Plan Limitations Exceeded  19 - M/I Days Supply	Opioid Maximum Days Supply of 30	<p><b>Additional Detail</b> If a Medicare Part D member was previously prescribed more than a 30-day supply of his or her opioid medication, and the member wishes to continue the medication through the Optum Rx Medicare Part D benefit after January 1, 2019, then the prescriber may write a new prescription for up to a 30-day supply.</p> <p><b>Recommended Action</b> Contact the prescriber for a new prescription written for a 30-day supply or less. Resubmit the prescription claim for a 30-day supply. Notify member of the change in prescription day supply.</p>
Opioid Refill Utilization Threshold	Optum Rx is implementing a refill threshold for all opioid products of 90%.  Refill threshold will be 80% at Home Delivery Pharmacy	79 - Refill Too soon, OR  88 - DUR Reject Error	Refill payable on or after [date of next allowed fill]	<p><b>Additional Detail</b> If an opioid medication claim is submitted for either a refill or new prescription fill before the previous fill has reached 90% usage, the claim will reject.</p> <p><b>Recommended Action</b> Resubmit the claim on the date of next allowed fill as defined in the returned message.</p> <p>Consult the prescriber to confirm attestation that the member must receive their prescription before the refill payable date and document the results.</p> <p>If the prescriber approves an early refill, call the pharmacy help desk for an override.</p>
Controlled Substance Prescriber License and Scope of Practice Validation	Optum Rx has a prescriber DEA license and scope of practice check at the Point of Sale (POS) for all Schedule II-V controlled medication claims to prevent payment of scheduled medication claims from unauthorized prescribers.	<p>Reject 43: Plan's Prescriber database indicates the associated DEA to the submitted Prescriber ID is inactive.</p> <p>Reject 44: Plan's Prescriber database indicates the associated DEA to the submitted Prescriber ID is not found.</p> <p>Reject 46: Plan's Prescriber database indicates the associated DEA to the submitted Prescriber ID does not allow this drug DEA class.</p>	<p>Reject 43 POS Message: "Plan's Prescriber database indicates the associated DEA to submitted Prescriber ID is inactive. Prescriber is not authorized for drug's DEA class."</p> <p>Reject 44 POS Message: "Plan's Prescriber database indicates the associated DEA to submitted Prescriber ID is not found. Prescriber is not</p>	<p><b>Additional Detail</b> The license and scope of practice check will validate submission of a valid, non- expired DEA prescriber license and then match the submitted prescriber's full two alphabetic letters and seven-digit numeric license number string to the submitted controlled drug GPI. Successful validation of these two steps will allow the claim to proceed to adjudication. However, failure of the check will result in a reject at the POS.</p> <p><b>Recommended Action</b> If the pharmacy encounters any of the above noted rejects on a prescription claim, the pharmacy must follow the steps below to continue processing the claim for a paid response:</p> <ol style="list-style-type: none"> <li>1. Obtain verification of the DEA license associated with the prescriber of the prescription and document on the original prescription hard copy.</li> <li>2. Select one of the following numeric Submission Clarification Codes (SCCs) based upon the validation obtained in Step 1. Please note that only the codes listed below can be used to apply the DEA check verification override. <ol style="list-style-type: none"> <li>a. Use code 43 if Prescriber's DEA is active with DEA Authorized Prescriptive Right.</li> <li>b. Use code 45 if Prescriber's DEA is a valid Hospital DEA with Suffix and has prescriptive authority for this drug DEA schedule.</li> <li>c. Use code 46 if Prescriber's DEA has prescriptive authority for this drug DEA schedule.</li> </ol> </li> <li>3. Enter the numeric SCC to process the claim; entry of the SCC in your pharmacy software entry field should now allow the claim to bypass the DEA check and send back a paid claim message if no other conflicting edits are found.</li> </ol> <p>In situations where the SCC still results in a rejected claim due to an invalid DEA number</p>

			<p>authorized for drug's DEA class."</p> <p>Reject 46 POS Message: "Plan's Prescriber database indicates the associated DEA to submitted Prescriber ID does not allow this drug DEA class. Prescriber is not authorized for drug's DEA class."</p>	<p>submitted, the Pharmacy Help Desk must be contacted for assistance.</p> <p>The Pharmacy Help Desk can also assist in initiating a request for Optum Rx to research the prescriber's DEA license in question and perform a data validation and update.</p> <p>This process should be followed for those Prescribers who would like their individual DEA license verified and updated in our records. Please allow for a 7 day turn-around time for these requests for prescriber information to be updated in the claim adjudication system.</p>										
<p>Controlled Substance Refill Limits and Time Limits</p>	<p>Based on DEA regulations, some controlled substance schedules include refill limitations and time limits for filling those refills. Within RxClaim, Optum Rx has DEA Edits known as Reject 17 (Refill Limit), and Reject 81 (Time Limit).</p>	<p>Reject 17 – M/I Refill Number</p> <p>Reject 81 – Claim Too Old</p>	<p>N/A</p>	<p><b>Recommended Action</b> If partial fills are dispensed for terminally ill patients, the pharmacy may request an override from the Pharmacy Help Desk.</p> <ul style="list-style-type: none"> <li>• If the pharmacy receives a reject 17 for a non-LTC claim, then a new prescription will be required.</li> <li>• If the pharmacy receives a reject 81 for a claim, then a new prescription will be required.</li> </ul> <p><b>Additional Detail</b> The federal and state specific refill limit and time limit requirements for controlled substance Schedules II – V (CII – CV) are researched and routinely monitored by the Optum Rx Regulatory Affairs Department, which includes internal Optum Rx legal review.</p> <p>These limitations do not apply to long-term care (LTC) claims due to allowable partial fills, which appear as refills.</p> <p>Federal schedule configuration:</p> <table border="1" data-bbox="1073 1089 2049 1344"> <thead> <tr> <th>DEA Class</th> <th>Edits</th> </tr> </thead> <tbody> <tr> <td>DEA Class II*</td> <td>Fill Date Window: Not Applicable Refill Restrictions: 00, Not applicable to LTC</td> </tr> <tr> <td>DEA Class III*</td> <td>Fill Date Window: 184 days Refill Restrictions: 05 (Original + 5 Refills), Not applicable to LTC</td> </tr> <tr> <td>DEA Class IV*</td> <td>Fill Date Window: 184 days Refill Restrictions: 05 (Original + 5 Refills), Not applicable to LTC</td> </tr> <tr> <td>DEA Class V*</td> <td>Fill Date Window: Follow state specific rules Refill Restrictions: Follow state specific rules, Not applicable to LTC</td> </tr> </tbody> </table> <p>*Additional standard State specific prescription length and refill restrictions will be applied if more restrictive than the Federal restrictions.</p> <p>As noted above, the Optum Rx RxClaim DEA Edit also references State specific limits for refill limits and the time limit of dispensing. Individual States can define more restrictive limits than the federal limits for refill limits and/or time limit of dispensing; however, States cannot define less restrictive limits. As such, the addition of the more restrictive State level</p>	DEA Class	Edits	DEA Class II*	Fill Date Window: Not Applicable Refill Restrictions: 00, Not applicable to LTC	DEA Class III*	Fill Date Window: 184 days Refill Restrictions: 05 (Original + 5 Refills), Not applicable to LTC	DEA Class IV*	Fill Date Window: 184 days Refill Restrictions: 05 (Original + 5 Refills), Not applicable to LTC	DEA Class V*	Fill Date Window: Follow state specific rules Refill Restrictions: Follow state specific rules, Not applicable to LTC
DEA Class	Edits													
DEA Class II*	Fill Date Window: Not Applicable Refill Restrictions: 00, Not applicable to LTC													
DEA Class III*	Fill Date Window: 184 days Refill Restrictions: 05 (Original + 5 Refills), Not applicable to LTC													
DEA Class IV*	Fill Date Window: 184 days Refill Restrictions: 05 (Original + 5 Refills), Not applicable to LTC													
DEA Class V*	Fill Date Window: Follow state specific rules Refill Restrictions: Follow state specific rules, Not applicable to LTC													

				functionality has been added to the RxClaim DEA Edit to ensure compliance with these requirements on both the federal and the State levels.

### Drug Management Programs (DMP)

Medicare Part D plans may have a DMP that limits access to opioids and benzodiazepines for patients who are considered by the plan to be at risk for prescription drug abuse. The goal of a DMP is better care coordination for safer use. Patients are identified for the program by opioid use involving multiple doctors and pharmacies as well as a history of opioid overdose, and through case management conducted by the plan with the patients' prescribers.

Coverage limitations under a DMP can include:

- Requiring the patient to obtain these medications from a specified prescriber and/or pharmacy, or
- Implementing an individualized POS edit that limits the amount of these medications that will be covered for the patient.

Before a limitation is implemented, the plan must give written notice to the patient, and an opportunity to tell the plan which prescribers or pharmacies they prefer to use or provide additional information if they disagree with the plan's decision.

If the plan decides to limit coverage under a DMP, the patient and their prescriber have the right to appeal the plan's decision. Pharmacies are not expected to distribute the standardized CMS pharmacy notice *Medicare Prescription Drug Coverage and Your Rights* to the patient in response to a rejected claim related to a limitation under a DMP. The patient or prescriber should contact the plan for additional information on how to appeal.

Opioid Edit Name	Description	Standard Reject Code / Description	Standard Messaging	Recommended Action / Additional Detail
Prescriber Lock-in	Per the 2019 Final Rule and CARA guidance, sponsors are now able to implement prescriber lock-in edits as part of the Drug Management Program to help members more safely manage use their opioids and frequently abused drugs. Optum Rx will implement a Prescriber Lock-in edit only with the consent and agreement of the designated prescriber for only opioid and/or benzodiazepine class drugs. This edit will prevent payment of the claim unless it is being prescribed by the designated prescriber of the Lock-in edit. The edit does not apply to drugs that are outside of the opioid and/or benzodiazepine classes, such as acute use medications, antibiotics, and maintenance medications.	828: Plan/Beneficiary Case Management Restriction In Place.  979: Recipient Locked into Specific Prescriber(s)*	Drug Mgmt Prgm Lockin Fax 877-239-4565**  <b>**Optum Rx standard fax for Appeals; clients who handle their own appeals will have the appropriate fax line display in the message for their respective members.</b>	<b>Recommended Actions</b> 1. Advise member that prescriber of the claim is not authorized due to case management restriction. 2. Direct member to contact their prescriber or authorized agent to initiate an appeal thru the number indicated in the reject message.  <b>Additional Details</b> When a Drug Management Program restrictive edit is decided upon by Optum Rx, we are required to send the member a series of written notifications to inform them of our decision and intent to implement the edit.  The first letter called the Initial Member Notice is sent thirty days before the start date of the edit and also provides the member an opportunity to provide a response back. The second notice is called the Second Member Notice and is sent on the same day as the edit effective date.  Therefore, members with DMP edits in place are provided due notice and opportunities to respond before there is any potential for disruption at point-of-sale.
Prescriber and Pharmacy Lock-in Edit	Per the 2019 Final Rule and CARA guidance, sponsors are now able to implement prescriber and pharmacy lock-in edits as part of the Drug Management Program to help members more safely manage use their opioids and frequently abused drugs.
