Formulary nebulizer solutions process under the Part B or Part D benefit based on the patient's location of residence which is communicated by the pharmacy to us via a PRC code. You do not need to request a prior authorization for formulary nebulizer solutions unless the nebulizer solution has a formulary restriction or you are contesting that coverage should be under one benefit versus another.

Part B vs D questionnaire:
Is the drug being administered using a nebulizer? Yes No

Select ONE of the following:

The drug is being administered at home (not including facility providing skilled nursing care)

The patient is in a long-term care facility (e.g., hospital or skilled nursing facility where patient is receiving skilled nursing care)

Quantity limit requests:
What is the quantity requested per MONTH? _____

What is the reason for exceeding the plan limitations?

Titration or loading-dose purposes

Patient is on a dose-alternating schedule (e.g., one tablet in the morning and two tablets at night, one to two tablets at bedtime)

Requested strength/dose is not commercially available

There is a medically necessary justification why the patient cannot use a higher commercially available strength to achieve the same dosage and remain within the same dosing frequency

Please specify: _____

Other: _____

Are there any other comments, diagnoses, symptoms, medications tried or failed, and/or any other information the physician feels is important to this review?

Please note: This request may be denied unless all required information is received.
If the patient is not able to meet the above standard prior authorization requirements, please call 1-800-711-4555.
For urgent or expedited requests please call 1-800-711-4555.
This form may be used for non-urgent requests and faxed to 1-800-527-0531.
